Some of you may have received a letter from the National Retirees Legislative Network (NRLN) within the past few weeks. The letter solicited your donation and membership to the NRLN. In addition it contained inaccurate, incomplete and misleading information in regard to the status of your Association. As Mark Twain said; "The report of my death was an exaggeration."

We can understand the concern and confusion among Raytheon retirees as a result of that letter, because it was published shortly after our Newsletter dated January 3, 2007 that informed you the Association was continuing in operation.

We have been in direct contact with the president of NRLN. He has apologized for issuing the letter, the resulting confusion it caused, and has withdrawn his request to our members for individual membership in the NRLN.

You can rest assured that your Board of Directors will continue with its primary purpose of improving the conditions of Raytheon retirees. We are in the process of preparing our next Newsletter which will share with you, our plans and objectives for the coming year.

Best Wishes

Robert Hamilton
President, Association of Raytheon Retirees
